

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, D.C. 20460

MAR 14 1984

OFFICE OF  
PESTICIDES AND TOXIC SUBSTANCES

MEMORANDUM

SUBJECT: 84-OR-08. Proposed Section 18 exemption for the use of vinclozolin on snap beans.

FROM: Edward Zager, Chemist  
Residue Chemistry Branch  
Hazard Evaluation Division (TS-769)

THRU: Charles L. Trichilo, Chief  
Residue Chemistry Branch  
Hazard Evaluation Division (TS-769)

TO: Emergency Response Section  
Registration Division (TS-767)

and

Toxicology Branch  
Hazard Evaluation Division (TS-769)

*Edward Zager*  
*C. L. Trichilo*

We have been asked to provide the reference for an analytical method that may be used for enforcement of the proposed exemption.

The method that may be used is BWC Analytical Method 25 (PP#9G2204). The method determines vinclozolin and its 3,5-dichloroaniline metabolites. Reported recoveries from beans fortified with 0.05-5 ppm vinclozolin ranged from 76-86%.
